INTRODUCTION

Dear esteemed Philatelist,

Twenty-twenty is an auspicious number. The phrase refers to having good vision (twenty-twenty vision). For the year twenty-twenty, NamPost has again produced a visual feast of philatelic products. Enjoy collecting them!

SQUIRRELS OF NAMIBIA

Africa has so many big and famous animals that squirrels tend to be overlooked. Four

WOODPECKERS OF NAMIBIA

KITES OF NAMIBIA

To see yellow-billed and black kites gather in great flocks of uncountable birds during the rainy season is a spectacular sight.

*While black-shouldered kites hunt alone, they roost together in larger numbers. Black-shouldered kites are Namibian residents. Yellow-billed and black kites (two subspecies of *Milvus migrans*) are seasonal migrants.*
